The Almshouse has been let to Mrs. Barrows, she to board the poor for a given sum per week. Only three have been under her charge during the year ; average number two.

We give the rate of taxation in Plymouth County, as usual, together with a few other towns in the State, to show how other people have been taxed the past year :

Abington .....	\$12 80	per \$1,000 00
Bridgewater.....	10 90	
Carver.....	9 00	
Duxbury.....	17 60	
East Bridgewater.....	16 50

Monroe.....	32 00	
New Salem.....	29 00	
Pelham.....	34 00	
Brighton.....	9 10	
Nahant.....	4 50	

The same appropriations throughout are recommended as of last year, to pay current expenses :

Repair of highways .....	\$1,200 00
Repair of bridges.....	100 00
Support of poor.....	1,000 00
Support of schools .....	1,600 00
State tax.....	1,000 00
County tax.....	770 37

The substance of our report is, that our poor have cost us \$358.29 more than last year, by the unusual expense of about \$450.00 caused by small pox breaking out in Town, which expense we have placed in the poor account, for the reason that there will be no reimbursement. The deficiency of \$16.12 may be paid out of the usual appropriation of next year.

The appropriations for other departments have been ample to meet expenses, excepting that the income from miscellaneous sources has not paid expenses. No appropriation is called for at this time ; if not self-sustaining, the deficiency may be paid out of the surplus cash in the Treasury.

While the balance in favor of the Town has decreased \$175.00 since last report, we still have a surplus of \$4,345.00 of cash or its equivalent available to meet all ordinary demands upon the Treasury the ensuing year without borrowing.

In conclusion, we remark, that the dull times have had no tendency to increase our expenses, and that however humble a position our little Town bears, we have had only what we could pay for, and paid for all we have had, (an idea perhaps not very popular, but one greeted with some satisfaction when tax bills are presented) and out of 341 towns in the State only 11 show a lower tax rate than Carver.

Respectfully submitted,

ANDREW GRIFFITH,	} <i>Selectmen and</i>
ALVIN PERKINS,	
H. A. LUCAS,

ANNUAL REPORT  
OF THE  
SCHOOL COMMITTEE  
OF THE  
TOWN OF CARVER,  
FOR THE  
School Year ending April, 1874.

## REPORT.

---

FELLOW CITIZENS :

Your Committee, having in charge the educational interests of the Town, hereby submit their Annual Report for the year ending April, 1874.

In the judgment of your Committee, the schools of the Town are in a healthy and vigorous condition, the year having been marked for great harmony of action, and attended, we believe, with more than ordinary success. The schools have been apportioned equally in length, or as nearly so as possible, among the several districts, excepting that it was deemed expedient to consolidate Districts No. 1 and 6, for the Winter term. This action was acquiesced in by the districts, and we believe proved mutually beneficial.

The following is our Statistical Report, appended to which will be found such General Remarks as we regard pertinent to the duties entrusted to our hands :

Town appropriation . . . . .	\$1,600 00
Massachusetts School Fund . . . . .	134 43

*GENERAL REMARKS.*

We do not expect to shed any new light upon the general subject of school management. We do not hope to break ground on any field of thought not already carefully considered by those who have preceded us ; but, as the supervisors of your schools, we are impressed by certain observations, vital to the welfare of our educational system, and which, we believe, cannot be too sedulously pressed upon your attention.

The first proposition we would urge upon your consideration relates to the absolute necessity of cooperation of the home-circle and the school-room. A teacher must be "something more or less than human," who can achieve any notable success, without the concurrent action and sympathy of the parents. To suppose a school can be set in motion, and run successfully for a term of months, without any practical outside sympathy, or auxiliary aid, is a lamentable delusion, that cannot be too thoroughly dispelled. We believe this to be a practical suggestion, worthy of your most candid and earnest attention. We do not indulge in Utopian dreams ; we do not look for anything like perfection ; but when we shall see the heads of families in this town thoroughly

and vitally awake to the importance of parental co-operation in school matters, we shall have gained a long march toward a higher educational plane, and many of the *seeming* defects of our school system will disappear. But, in presenting this line of thought, we do not lose sight of the fact that in the teacher finally lies the secret of success. To achieve success in teaching, in the highest and best acceptation of the term, requires a diversity of peculiar gifts. A great linguist, a great mathematician, a great grammarian, or all of these, may prove a very poor teacher. To exercise a firmness and vigor that shall incite a school to action, and insure strict discipline, and accompany these qualities with a wise forbearance and kindness, that shall win respect and confidence ; to be able to inculcate the *spirit* as well as the *letter*, the *principle* as well as the *rule* of a problem, to supplement the *possession* of knowledge with a genius for *imparting* it, such are some of the requisites of a good teacher. To secure such a union of qualifications in every teacher is no easy task, though, in making our selections, we have borne the principle steadily in mind.

Absenteeism and tardiness are among the worst evils of our schools. No student can succeed in his studies whose mind is distracted by irregular attendance, while it is a positive injury to any school to have its attention diverted by the arrival of tardy members. And here again, we invoke the united efforts of parents and teachers, for greater punctuality in attendance, to the end

that, as nearly as may be, each pupil may occupy his or her seat, and our schools be as nearly as possible intact, at the sound of the teacher's bell.

We cannot omit to speak in terms of gratitude of the generous appropriation which has been bestowed upon our schools. It has enabled your committee to employ teachers of good standard qualifications, while the length of the schools has been such as to insure the most satisfactory results, not only in the progress made but in the thoroughness observed, which, after all, is the essential of all *true* progress.

At the opening of the school-year a surplus existed in the school fund of about two hundred dollars, which has been mostly expended, in accordance with the best judgment of your committee. To afford the schools the same advantages for the coming year that they have enjoyed the past year, will require an increased appropriation of nearly two hundred dollars. We hope this increase will be granted, for money, which is the "sinews of war," is as truly *the sinews of our schools*. In conclusion, we sincerely trust the practical interest and sympathy which the Town has shown for our schools, may suffer no decline. In the education of our children is involved not only our present prosperity, but our hopes for the future. We are sanguine that a cause so vital to the best interests of society and good government, will continue to receive a generous support at your hands.
